

TERMET S.A.	INSTANTANEOUS GAS WATER HEATER	
ul. Długa 13 58-160 Świebodzice	WGT3830.00.00.00/EU-T	AUQA COMFORT ECO GT-24-03
	EPREL	

		BASIC PROFILE	ADDITIONAL PROFILE
Declared load profile		L	-----
Water heating energy efficiency class	η_{wh}	A	-----
Water heating energy efficiency		78 %	-----
Annual electricity consumption	AEC	13 kWh	-----
Annual fuel consumption	AFC	13 GJ	-----
Thermostat temperature settings	°C	35	
Sound power level	L _{WA}	53 dB	
Able to work only during off-peak hours		-----	
Any specific precautions that shall be taken when the water heater is assembled, installed or maintained			
1. Check if the purchased water heater is adapted to combust the type of gas supplied from the gas mains which the appliance will be connected to. 2. It is not allowed to install instantaneous gas water heaters in rooms exposed to temperatures below 0°C. If there is such a risk, it is necessary to drain the heater out of water. 3. It is not allowed to install instantaneous gas water heaters above a heat source (i.e. electric or gas cooker, etc.) 4. It is strictly forbidden to assemble and use the unit in rooms where construction or other installation works are still under way. 5. After all installation works are completed, it is necessary to check up if all gas and water connection are tight. 6. The water heater can be operated only by adults. 7. Do not perform any repairs or alterations to the water heater on your own. 8. It is strictly forbidden to make any modifications that could reduce the clearance of air-intake holes (covering, blanking off etc.) or uptake and flue ducts in a room and in the appliance. 9. Do not keep any containers with inflammable, aggressive or strongly corrosive chemicals close to a water heater. 10. It is forbidden to keep or dry clothes or other inflammable objects on or nearby the appliance and flue ducts. 11. The service and maintenance operations of the water heater can be only performed by an authorised company.
